Profile

I am passionate about software development and continuously improving my skills in Computer Science, especially in full-stack web development. I enjoy reading the Holy Bible and other inspirational and educational materials, including technology blogs, journals, and articles to stay updated with the latest advancements. I like problem-solving and practicing coding to strengthen my technical abilities. I also value teamwork and enjoy collaborating with others in both technical and community activities. Additionally, I actively participate in voluntary activities that support the environment and help people, and I strongly believe in hard work, honesty, and contributing positively to society.
